SETAYESH SOHEILI

Python Developer | Automation & Bot Development | Problem Solver

@ sin.soheili@hotmail.com   🔗 https://www.linkedin.com/in/sin-soheili/   📍 Gorgan
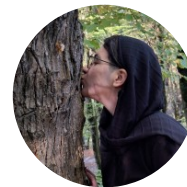

SUMMARY

🌟 **A software engineering student and programmer** with two years of experience in front-end development before transitioning to back-end (FastAPI/Django).

👨‍💻 Currently focused on **web services and Telegram bots** development.

🌐 Passionate about **exploring Python**, working with various libraries, and constantly learning new technologies.

💬 Always open to **collaboration and knowledge exchange**—let's connect!

EXPERIENCE

Python Developer

Freelance   📅 07/2022 - Present   📍 Remote

- Designed and developed Telegram bots and automation systems for various businesses.
- Utilized various Python libraries to create custom scripts for process optimization and time-saving.
- Worked with APIs to gather data and use it for business analysis and automation.
- Provided technical consulting on cybersecurity and best practices for building resilient software.

Frontend Developer

Freelance   📅 2020   📍 Remote

- Built and designed responsive and optimized user interfaces using **HTML, CSS, JavaScript**, and **VUE**.
- Collaborated with design teams to deliver enhanced user experiences and better user interactions.

Private Python and Front-End Tutor

📅 2024 - Present   📍 Gorgan

- I have been teaching private Python and Front-End courses, collaborating with students and enthusiasts on various topics.
- Teaching Python fundamentals and advanced concepts, including object-oriented programming, working with libraries, web development, and task automation.
- Instructing modern front-end techniques such as HTML, CSS, JavaScript, and Vue, with a focus on designing responsive and optimized web pages.
- Providing guidance and support to students in completing practical projects and advancing their coding skills.

EDUCATION

Software Engineering Student

University of Maedeh   📅 2023 - Present

LANGUAGES

English   Advanced ●●●○○   Persian   Native ●●●●●

SKILLS

Python   Socket.io   Selenium

BeautifullSoup   Telethon   Pyrogram

Html   Css   Tailwindcss

Bootstrap   Javascript   Vue.js

Django   Fastapi

KEY ACHIEVEMENTS

👁 **Built high-performance web services**
capable of handling thousands of concurrent requests, managing rotating cookies for authentication, and supporting media downloads from platforms like YouTube and Pinterest.

⚙ **Deeply explored Python and worked with a variety of libraries and tools**
ranging from API development to data analysis and multimedia processing.

🖥 **Experienced in Django for building dynamic web applications**
focusing on performance, security, and maintainability.

INTERESTS

🔍 Data Scraping & Web Crawling
